1. The following is an examiner's statement of reasons for allowance: The closest prior art JP'399 teaches a metallic body comprising a colored resin coat formed from a curable powder coating composition and an at least somewhat transparent fluorescent topcoat comprising phosphorescent pigment blended with a curable organic silicone clear coating and colored similar to the color of the resin coat layer such that the color pigment intercept light other than sufficient to excite the fluorescent substance extending the endurance of the phosphorescent properties. However, JP'399 does not teach or fairly suggest that the clearcoat film is formed wet-on-wet on the uncured color coating layer wherein in terms of the product, the final product taught by JP'399, with a cured powder coating layer below the curable clear coating, would not inherently be the same as the instantly claimed product. Additionally, related U.S. Patent No. 6,789,905 has been overcome by the timely filing of a proper terminal disclaimer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Monique R. Jackson whose telephone number is 571-272-1508. The examiner can normally be reached on Mondays-Thursdays, 8:00AM-4:30PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Carol Chaney can be reached on 571-272-1284. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
